Chairman, National committee for the study of

Kimilsungism-Kimjongilism of Ethiopia

Dear Juche soldiers from all around the world,

Dear Friends!

On behalf of the National Committee for the study of **Kimilsungism-Kimjongilism** of Ethiopia,

all members and supporters of our committee, I convey our warmest fraternal greetings on the 30th anniversary of the demise of Korea's world-historic and heroic leader, Comrade **Kim Il Sung**, who led the Korean people not only through armed struggle to freeing the northern part of their country from exploitation and oppression, but also in the Fatherland Liberation War to inflicting the first military defeat ever suffered by US imperialism, despite the overwhelming support the latter enjoyed from fellow imperialists and various lackey states.

President Kim Il Sung actively supported the national liberation struggles of the oppressed peoples of the world, and encouraged them to achieve the victory.

President **Kim Il Sung** gave encouragement and confidence to the progressive peoples struggling for independence and made an outstanding contribution to the cause of independence of mankind.

By brilliantly applying the philosophical principle of the Juche idea, which he had authored, to the national liberation struggle, he put forward the guidelines for the national liberation movement that the oppressed peoples of the world could achieve their genuine freedom and independence by their own efforts and struggles.

The victory of the anti-Japanese armed struggle was achieved thanks to President **Kim Il Sung**, an ever-victorious brilliant commander, who put forward political programme and scientific methods to realize them and to his outstanding strategic and tactical leadership.”

Though 30 years have already elapsed since President **Kim Il Sung** passed away, his contribution to the anti-imperialist cause for independence of mankind is being told with undiminished admiration.

President **Kim Il Sung**, in his whole lifetime, had devoted everything for the development of the world’s socialist movement, for the victory of the cause of anti-imperialist independence and for the global peace and security under the uplifted banner of independence and international justice, performing the greatest exploits that no other great man in the world can ever achieve.

By organizing people's guerrilla against Japanese occupant, he liberated the Korean Peninsula from Japanese imperialists and founded the free and independent Democratic People's Republic of Korea, the state of the people and for the people.

His Juche Idea says that man is the master of everything and decides everything. The Juche Idea describes man as the one having independence, creativity and conscience.

Kimilsungism-Kimjongilism strikes its root deep in the hearts of hundreds of millions of the people as the guideline leading the independent development of all countries and nations, the banner of building an independent new world, a peaceful and fair new society.

Today, Africa is becoming the most unfortunate continent on this planet and getting a blow by civil wars, border disputes, and internal wars among ethnics.

African countries have a lot of natural resources and human capital to develop themselves, but

due to the interest of western countries they exploited the resources by intervening internal affairs and policies.

Scientific accuracy and truthfulness of the Juche idea is proved also through the stirring events that the people in African countries, who had lived under the imperialist subjugation and oppression, have achieved independence and turned out in the struggle for a new society.

Since foreign forces persist in building up their influence over Africa, it comes to be a more urgent issue to equip Africans with the idea of independence as the Juche idea sheds light on the African continent.

The problem that Africa achieves development out of the crisis is the issue of regaining the sovereignty of country and nation and the continental sovereignty in all fields of politics, economy, military, and culture free from the neo-colonial domination of imperialism.

There is a path for African development in the unity and cooperation of African countries and nations based on the Juche idea.

I would have an expectation that Korean people will achieve significant success in its struggle for implementing the decision set forward by the 8th Congress of the Workers' Party of Korea under the wise leadership of **H.E. Kim Jong Un**, General Secretary of the Workers' Party of Korea.

The National committee for the study of **Kimilsungism-Kimjongilism** of Ethiopia are proud of the DPRK's unshakable ability to stand up to defend itself when so many others feel themselves obliged to capitulate.

"Great Leader Comrade Kim Il Sung and Great Leader Comrade Kim Jong Il will always be with us!"

"Long live the Great Kim Il Sung-Kim Jong Ilism!"

"Long live the Workers' Party of Korea!"

"Long live Korean socialism! "
